Katun introduces top quality new-build toner cartridges for use in Olivetti printers

The introduction of these Katun® Performance™ toner cartridges for use in the very popular Olivetti PG L2130 and PG L2135 machines adds to Katun's existing product offering for use in Olivetti monochrome printers. These products provide the ideal combination of cost savings and high-quality performance. To enable full compatibility with managed print systems (MPS), these new-build Katun® Performance™ cartridges come standard with a chip, like the OEM cartridge.

Benefits:

◆ **Toner Performance You Can Trust**

These Katun® Performance™ new-build toner cartridges have been developed and rigorously tested to provide outstanding image quality, image density, page yields and fusing performance. You'll receive industry-leading performance from these reliable, profitable OEM alternatives.

◆ **Reduce Your Supplies Costs Today**

Every business, whether large or small, is looking for ways to gain a competitive advantage. These products offer OEM-equivalent performance at a significant cost savings, which means you can improve your profitability without sacrificing quality.

◆ **Consistent Print Quality**

These new-build toners are the result of Katun's commitment to quality and provide the outstanding performance and remarkable print quality that is synonymous with the Katun® Performance™ brand name.

◆ **A Growing Line You Can Count On**

Katun's product line for use in Olivetti printers continues to expand with the introduction of these highly anticipated new-build toner cartridges. Olivetti dealers who have successfully utilized previous Katun® toner cartridges because of consistent performance, high print quality and significant cost savings, will be equally satisfied with these new Katun® toner cartridges which now include an RFID chip to allow for full MPS functionality.

Machine Overview

In 2010, Olivetti introduced the PG L2130 and PG L2135 printers. These machines are ideal for individual users and small workgroups. Productive and fast, these printers deliver print speeds up to 35 ppm and a 6 second first-print time.
