

Katun Performance™ Color Toners for use in

Kyocera Mita FS-C5150 DN

Printers

Katun PN: See page 2 • OEM PN: See page 2

Katun® is pleased to announce the release of high-quality color toner cartridges for use in Kyocera Mita color printers

The introduction of this Katun Performance™ toner cartridge set for use in the very popular Kyocera Mita FS-C5150 DN applications adds to Katun's growing product offering for use in Kyocera Mita printers. This product provides the ideal combination of cost savings and high-quality performance for dealers and end-users looking for a quality OEM alternative. To enable full compatibility with managed print systems (MPS), this new-build Katun Performance™ cartridge comes standard with a chip, similar to the OEM cartridge.

Benefits:

◆ Toner Performance You Can Trust

These Katun Performance™ color toner cartridges have been developed and rigorously tested to provide outstanding image quality, color reproduction and page yields. You'll receive industry-leading performance from this reliable and profitable OEM alternative.

◆ Reduce Your Supplies Costs

Every business, whether large or small, is looking for ways to gain a competitive advantage. This product offers OEM-equivalent performance at significant cost savings, which means you can improve your profitability without sacrificing quality or customer satisfaction.

◆ Consistent Quality and Performance

This new-build color toner set is the result of Katun's commitment to quality and provides the outstanding performance and remarkable print quality that is synonymous with Katun Performance™ products.

◆ A Growing Line You Can Count On

Katun's line of products for use in Kyocera Mita printers continues to expand with the introduction of this highly anticipated new color toner set. Kyocera Mita dealers who have successfully utilized previous Katun® monochrome toner cartridges because of consistent performance, high print quality and significant cost savings, will be equally satisfied with these new Katun color toner cartridges.

Machine Overview

In 2010, Kyocera Mita introduced the FS-C5150 DN printers. These machines are affordable and suited for small businesses or workgroups up to 10 people. They deliver print speeds up to 23 ppm and have a first-page-out time of 10.5 seconds for black and 12 seconds for color.

Model	Intro	Speed (ppm)	Mfg Status	Functions
FS-C5150 DN	Q4 2010	23	Current	Print

Product Characteristics
